

Pose

barriere anti-inondation

A close-up photograph of a white metal beam, likely part of a machine. The beam has a small, circular hole in the center. To the left of the hole is a rectangular area with a fine, grid-like texture. The background is a dark, textured surface, possibly a workbench or floor, with some yellowish debris. A white text box is overlaid on the left side of the image.

En cas de présence de copeaux d'aluminium,  
passez un coup de lime pour s'assurer d'avoir  
une surface plane.
